

LOCAL HACK DAY NYC

Sponsorship Proposal

Who Are We?

We are a group of young teens that have a common passion, technology. Technology is a force that drives the world today, and that will take over tomorrow. Our love for technology drove us to create a 12 hour hackathon that brings together all people to connect and create great things. Inside the heart of a hackathon lies innovation and creativity. It is a home for great minds and visionaries to assemble and give birth to radical solutions. In the past we had hosted 5 successful hackathons when partnering with Young Hackers, so we plan on this being success as well.

Why Sponsor?

Local Hack Day is a 12 hour mini-hackathon on your School's campus that brings together the local hacker community to celebrate building awesome technology. Simultaneously other students around the world will be hosting their own Local Hack Days, resulting in the largest single day of student hacking ever.

Throughout the day there will be awesome live-streams, chatrooms, and fun activities that you can use to meet students in your local community and across the globe.

Whether you're a seasoned hackathon veteran or have never been to a hackathon before, Local Hack Day is the best way to kick off the Fall 2015 MLH Hackathon Season.
